

CPPL2 Laboratory Policies 2024/ 2025

1. Students must prepare at least 2 problems of their weekly homework (Homework 2_2 – Homework 2_12). The homework is available on the discipline webpage: http://etti.legacy.tuiasi.ro/pclp/PCLP2_Laborator.html
2. **The attendance to the laboratory classes is mandatory.** There are maximum 3 absences allowed, but with the following penalties: 1 absence – minus 1 point, 2 absences – minus 1.5 points, 3 absences – minus 2 points from the laboratory final grade.
3. **The students who have more than 3 absences or they don't have at least grade 5 for laboratory activities, are not allowed to participate to the CPPL2 examination.**
4. The laboratory activity (the homework, the answers during the class and the results of the short tests during the class) represents 50% of your laboratory final grade.
5. **In the week 8, all the students will take a C language test on the computer. The duration of the test is 30 minutes.** This test represents 50% of your laboratory final grade.
6. The colloquium will be held in weeks 13 and 14. It will consist of a practical test, which will last, **in week 13, 30 minutes, and in week 14, 40 minutes, for each half of the group.** The division into two halves is done according to the alphabetical criterion. In the 13th week, a problem will be solved to obtain grade 5 (equivalent to 5 points), for which the student does not receive help from the teaching staff. **The student who does not solve the grade 5 problem is considered not promoted and CANNOT participate in the examination of the 14th week.** In the 14th week, 2 problems will be found on the tickets, the first worth 3 points and the second, 2 points, if the student solves them correctly and completely. Any help from the teaching staff on the problems in week 14 is penalized accordingly in points. You can solve problem 2 instead of problem 1, but for 2 points!! The sum of the points obtained represents the colloquium grade, which, in turn, represents 60% of the final grade.
7. The laboratory final grade represents 40% of the final CPPL2 grade.

Laboratory homeworks

Weeks	1- 7	Homework 2_1 – Homework 2_7
Week	8	TEST 30 mins + Homework 2_8
Weeks	9 - 12	Homework 2_9 – Homework 2_12
Week	13	Test 1 – GRADE 5 PROBLEM - ELIMINATORY
Week	14	Test 2 – GRADE 6-10 PROBLEMS
