

This Joint Conference is organized under the aegis of

The Romanian Academy, Iasi Branch, and
The Romanian Academy, Section for Information Sciences

Local Organizers

The Municipality of Iasi

The Technical University of Iasi
Faculty of Electronics and Telecommunications
Faculty of Automatic Control and Computer Engineering

The University “Al. I. Cuza” of Iasi
Faculty of Mathematics
Faculty of Informatics

The National Institute for Inventics, Iasi

The University of Medicine and Pharmacy
Faculty of Bio-Engineering

Consortium of International Organizers and Supporting Institutions

BMFSA Biomedical Fuzzy Systems Association, Japan
ELITE European Laboratory for Intelligent Technology, Germany
SICC Societa Italiana 'Caos & Complessita', Italy
FLSI Fuzzy Logic Systems Institute, Iizuka, Japan
Faculty of Electronic Engineering and Neurolab, University “Mediterranea” of Reggio Calabria, Italy
Dipartimento Matematica e Informatica, Universita' degli Studi di Udine, Italy
National Institute for Research and Development in Informatics, Bucharest
BUFSA Balkan Union for Fuzzy Systems and Artificial Intelligence
The Institute for Artificial Intelligence (Bucharest) of the Romanian Academy
The Institute for Theoretical Informatics (Iasi) of the Romanian Academy
Faculty for Bio-Engineering, University of Medicine “Gr.T. Popa”, Iasi, Romania
SRSF - The Romanian Society for Fuzzy Systems
The Commission for Fuzzy Systems and AI of the Romanian Academy, Iasi Branch
The Romanian Academy Commission for information Technology for the Romanian Language
The International Journal of Chaos Theory & Applications
Fuzzy Systems and AI Journal (Romanian Academy Publishing House)

Supported by

Romanian Academy - Iasi Branch
Technical University of Iasi
University “Al. I. Cuza” Iasi
The Institute for Theoretical Informatics (Iasi) of the Romanian Academy

Sponsored by

Iasi County Council
Iasi Municipal Council
APAPS Iasi
ROMUS Iasi

COMMITTEES

Honorary Co-Chairmen

Hans-Jurgen Zimmermann (Germany)

Kaoro Hirota (Japan)

Abraham Kandel (USA)

Chairman

Horia-Nicolai Teodorescu

International Honorary Advisory Committee

Co-Chairs

Prof. Mihai Draganescu, Former President of the Romanian Academy

Prof. Florin Filip, Vice-President of the Romanian Academy

Prof. Junzo Watada, President BMFSA (Japan)

Members

Prof. Seizaburo Arita (Japan)	Prof. Masaharu Mizumoto (Japan)
Prof. Krassimir Atanassov (Bulgaria)	Prof. Daniel Mlynec (Switzerland)
Prof. Vitalie Belousov (Romania)	Prof. Carlo Morabito (Italy)

ECIT'2002

Iasi City, Romania, July 17-20, 2002

July 16, 11:00 – 11:50 a.m.

Group of Laboratories for Intelligent Systems & BME, Technical University of Iasi

11:00 – 11:50 a.m.

Medical Devices Regulation on European Union

S. Loznen

Head of Medical Devices Evaluation Services

The Standards Institution of Israel, Tel Aviv, Israel

11:50-12:20

A New Science Frontier: Computing and Measuring with Attractors

H.N. Teodorescu

Romanian Academy

The fee for the Tutorials attendance is not included in the Conference fee. Please contact the ECIT2002 Conference organizers at ecit2002@etc.tuiasi.ro.

Program of ECIT'2002 & ROSYCS'2002 Joint Conference

ECIT'2002

Iasi City, Romania, July 17-20, 2002

ROSYCS 2002

Opening Session and Plenary Sessions (Joint opening session ROSYCS and ECIT)

July 17, 2002, 9:00 a.m. Historical Auditorium of the Technical University "Gh. Asachi" of Iasi

Press Conference 8:30-9:00

Opening Addresses 9:00-9:30

- Welcome Address, Chairman of the ECIT'2002 Conference
- Opening Address, Acad. V. Barbu, President, Iasi Branch of the Romanian Academy
- Opening Address, County Chief Officials
- Opening Address, Dr. C. Simirad, Mayor of Iasi
- Opening Addresses, Vice-Rector Prof. Ion Giurma, Technical University "Gh. Asachi" of Iasi
- Opening Address, Vice-Rector Prof. Toader Jucan, University "Al.I. Cuza"
- Opening Address, Prof. Vitalie Belousov, General Director, National Institute for Inventics
- Address from the Guests: Prof. Junzo Watada, President BMFSA, Japan

Plenary lectures

First day Plenary Session

July 17, 2002,

9.30- 10.20

On Recent Development of Soft-computing Approaches to Portfolio Selection Problems

Junzo Watada

President, BMFSA, Japan

10.20-10.40 Coffee break

10.40-11.30

Constructing Correct Communicating Systems of Mobile Objects

Traian Muntean

Marseille University, France

11.30-11.50 Coffee break

Third day Plenary Session (ECIT; also opened to ROSYCS participants)

July 19, 2002, 10:45 – 11:30

Image Data Compression/Reconstruction using Fuzzy Relational Equation

K. Hirota

President, SOFT, University of Tokyo, Japan

Symposium on Mathematics of Intelligent Systems

Thursday, July 18, 9:00-10:30 and 15:00-16:30
Council Hall of the Mathematics Faculty, "AL. I. Cuza" University, Iasi

Chairman: Prof. Dr. C. Ilioi ("AL. I. Cuza" University, Iasi)

Development of Algebra for Intelligent Technologies

M. Stefanescu

University of Constanta, Constanta, Romania

Fuzzy Sets, Rough Sets and Hyperstructures

P. Corsini

University of Udine, Udine, Italy

Fuzzy structures and Galois Theory

C. Volf

"Al. I. Cuza" University, Iasi, Romania

First Step in Hypermodules Homology

M. Gontineac

"Al. I. Cuza", University, Iasi, Romania

Finite Fields and Cryptography

Ennio Cortellini

Dept. MET, University of Teramo, Italy

Semigroups and Hyperstructures

V. Leoreanu

"Al. I. Cuza", University, Iasi, Romania

True Defuzzification – The Average Level of a Fuzzy Set

D. Ralescu

University of Cincinnati, Cincinnati, USA

An Algebra of Fuzzyness Concepts, the Operation of Subcategorization and Derivative Categories of Logics

G. Ceausu

University "Al. I. Cuza", Iasi, Romania

Special Classes of Hypergroups Representations

M. Tarnauceanu

University "Al.I. Cuza", Iasi, Romania

Session on Genetic and Evolutionary Algorithms and Programming

Main Hall of the Romanian Academy, Iasi Branch July 17, 14:30-16:30

Chairman: Prof. D. Dumitrescu

Evolutionary Reorganization in MAS

D. Dumitrescu, C. Florea, P. Patranjan

University "Babes-Bolyai", Cluj-Napoca, Romania

Electrical Load Time Series Analysis and Forecasting Approaches (Preliminary Results)

A. Brezulianu

Technical University "Gh. Asachi", Iasi, Romania

Changing the Fuzzy Rules in Crossover Stage (Genetic Algorithm Optimization)

L. V. Boiculese, H. Costin

University of Medicine and Pharmacy "Gr.T. Popa", Iasi, Romania

Classic Genetic Algorithm Approach for Solving Multiple Traveling Salesman Problem

A. Brezulianu, I. Gradinaru, A. Vinca

Technical University "Gh. Asachi", Iasi, Romania

Symposium on Fuzzy, Neuro-Fuzzy, and Neural Systems

Symposium Co-Chairs: Prof. Junzo Watada, Prof. Sadayasu Shibata

Organizers:

BMFSA (Japan), SRSF, BUFSA, Commission for Fuzzy Systems & AI, Romanian Academy, TT Ltd.

Advisory Committee Members

Masaharu Mizumoto, Torao Yanaru, Junzo Watada, Hideyasu Hirano,
Sadayasu Shibata, Masahiro Nakano, Mikio Maeda

Session 1

Main Hall of the Romanian Academy, 18 July, 9:00-10:30

Chairman: Prof. J. Watada, Japan

Co-Chairman: Prof. S. Arita

Formulation of Fuzzy Switching Autoregression Model (FSAI)

J. Watada, Y. Toyoura

School of Industrial Management Osaka Institute of Technology, Osaka, Japan

Improving Dynamic Personalisation Using a Neuro-Fuzzy System for Wireless Applications

M. Cremene, S. Zahan, I. Benta, R. Padureanu

Technical University, Cluj-Napoca, Romania

Muscle Rehabilitation using a Fuzzy Controlled Stimulator

R. Ciorap¹, R. Lupu¹, F. Topoliceanu², A. Stratone², I. Raducanu¹

¹*Medical Bioengineering Faculty, University of Medicine and Pharmacy "Gr.T.Popa", Iasi, Romania*

²*Medicine Faculty, University of Medicine and Pharmacy "Gr.T.Popa", Iasi, Romania*

Biomedical Image Segmentation using Semantic Networks and Imagistic Fuzzy Sets

H. Costin^{1,4}, L. Boiculese², C. Rotariu^{1,4}, A. Doloca³

¹*Faculty of Medical Bioengineering; Univ. of Medicine and Pharmacy, Iasi, Romania*

²*Faculty of Medicine; Univ. of Medicine and Pharmacy, Iasi, Romania*

³*Faculty of Pharmacy Univ. of Medicine and Pharmacy, Iasi, Romania*

⁴*Institute for Computer Science, Romanian Academy-Iasi Branch, Romania*

VLSI Implementation of the Fuzzy Image Filtering

N. Bizon, R. Raducu

Pitesti University, Pitesti, Romania

Fourteen Years Progress of the Biomedical Fuzzy System Association

S. Shibata (to be presented by another person)

Vice-President, BMFSA, Japan

Session 2

Main Hall of the Romanian Academy, 18 July, 15:00-16:30

Chairman: Prof. J. Watada, Japan

Co-Chairman: Prof. S. Ogata

Fuzzy Model Level Predictive Control for a Drum Boiled

D. Andone

University "Politehnica", Bucharest, Romania

Contributions to Decision Theory with Fuzzy Characteristics

P. Tacu¹, V. Stefan²

University "AL. I. Cuza", Iasi, Romania¹, Technical University "Gh. Asachi", Iasi, Romania²

Fuzzy Model of the Fly Electroretinogram

D. E. Creanga

"Al. I. Cuza" University, Iasi, Romania

How can be used the neural networks, cellular automata and genetic algorithms in the epidemiology of the transmissible diseases.

C. N. Zaharia, Al. Cristea

Institute of Virology "Stefan S. Nicolau" Bucuresti, Romania

An Algorithm for Controlling the Sound Systems

M. Hnatiuc

Technical University "Gh. Asachi", Iasi, Romania

On Some Generalized Net Models of Multi-Agent Systems

T. Trifonov, K. Atanassov

Center for Biomedical Engineering, Bulgarian Academy of Sciences, Sofia, Bulgaria

A Gradient Based Algorithm for a Sugeno (Type 0) Fuzzy System

C. B. Branzila¹, O. Geman², L. Fira²

¹*Institute of Theoretical Informatics, Romanian Academy, Iasi Branch, Romania*

²*Technical University "Gh. Asachi", Iasi, Romania*

Application of Fuzzy Functional Systems to Spark Engine's Simulation

I. Raducanu, L. Dumitriu, L. Vornicu

Technical University of Iasi, Romania

Symposium on Dynamic Systems, Chaos Theory and Applications

Chairman: Prof. S. Arita

Co-Chairman: Prof. S. Ogata

Symposium Scientific Committee

S. Arita (Japan), S. Ogata (Japan), J. Watada (Japan), C. Ciubotariu (Romania), E. Sofron (Romania)

Session 1. Methods and Theoretical Issues

Council Hall, Romanian Academy-Iasi Branch, July 18, 9:00 – 10:30

Chairman: Prof. S. Arita, Japan

Co-Chairman: Prof. J. Watada

Organizers:

Group of Labs for Intelligent Systems and BME, BMFSA

Characteristics of Chaotic Behavior Based on the Logistic Model

K. Yoshii¹, S. Arita²

Kansai Medical University, Kansai, Japan¹

Kansai Medical School, Kansai, Japan²

Time Series Analysis of Electrocardiogram and Pulse Wave Responses

Seizaburo Arita¹, Kengo Yoshii², Shunichi Ishihara³, Takahisa Takeda³

Kansai Medical School, Kansai, Japan¹

Kansai Medical University, Kansai, Japan²

Takeda Hospital, Takeda, Japan³

Chaotic Beltrami Fields and Applications

C. Ciubotariu, C. Marin

Technical University "Gh. Asachi", Iasi, Romania

Some Comments on A General Method of Synchronization of Chaotic Systems

I. Grosu

University of Medicine and Pharmacy "Gr.T. Popa", Iasi, Romania

Evaluation of Load of Multi-Task Unix OS by Fractal Theory and Its Generation Mechanism

Masaya Sechimoto¹⁾ and Sumitoshi Ogata²⁾

¹⁾*Implex, Ltd., Kitakushu, Japan*

²⁾*Dept. Control Eng. And Science, Kyushu Institute of Technology, Iizuka, Japan,*

The Emergence Dynamics of the New Hierarchical Modular Systems Types, Analyzed in a Space of the System Quality.

Al. Cristea, C. N. Zaharia

Institute of Virusology "Stefan S. Nicolau" Bucuresti, Romania

Session 2. Applications

Council Hall, Romanian Academy-Iasi Branch, Iasi, July 18, 15:00-16:30

Chairman: Prof. S. Ogata

Co-Chairman: Prof. E. Sofron

Search for Evidence of Chaotic Behavior of the Human Hemoglobin-A upon Molecular Oxygen Binding

A. Isvoran

University of the West Timisoara, Timisoara, Romania

Chaotic Behavior of Hourly-based Tide Level Fluctuations Influenced by A Strong Ocean Current and Visualization of Its Phase Shift Process by Wavelet by Transform

Kenta Kirimoto and Sumitoshi Ogata

Kyushu Institute of Technology, Iizuka, Fukuoka 820-8502, Japan

Deflection Reduction Control for a Continuous Parameter System with a Travelling Mass

Y. G. Sung¹, H. H. Joo²

Chousun University, Korea¹

Yeungnam University, Korea²

Applications of Dynamic Chaotic Systems

A. Serbanescu¹, I. Tutanescu², E. Sofron², D. Scheianu², C. Irimia¹

Technical Military Academy¹

University of Pitesti, Pitesti, Romania²

Controlling Arbitrary Chaotic Systems

I. Grosu

University of Medicine and Pharmacy "Gr.T. Popa", Iasi, Romania

Fractal Dimension in *Quercus* Leaves

I.Al. Creanga¹, S. Oancea², D. Creanga³

Forestry Territorial Office, Iasi, Romania¹,

"Ion Ionescu Dela Brad" University of Agronomy and Veterinary Medicine, Iasi, Romania²,

"Al. I. Cuza" University, Iasi, Romania³

Uncertainty Aggregation and Uncertainty Complexity in Coupled Map Networks. Applications

H. N. Teodorescu

Complexity, mind and cellular automata: A new kind of artificial intelligence.

I. Licata

Istituto di Cibernetica Non-Lineare per la Studio dei Sistemi Complessi, Marsala, Italy

Session 3. Session on Ganglions and T-ganglions

Council Hall, Romanian Academy-Iasi Branch, Iasi, July 19, 16:45-18:00

Chairman: Prof. S. Arita

Co-Chairman: Prof. C. Ciubotariu

Soft Implementation of T-Ganglions

C. B. Branzila

Institute for Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Dynamic Behavior of Artificial Ganglions and T-Ganglions

M. Hnatiuc¹, M. Peredelcu¹, C. B. Branzila², M. Babii¹

¹Technical University "Gh. Asachi", Iasi, Romania

²Institute for Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Experimental Results for an Artificial Retina Based on Chaotic T-Ganglions

H. N. Teodorescu, C. Iov

Technical University "Gh. Asachi", Iasi, Romania

A Temperature Sensor Based on T-Ganglions Mimicking Natural Sensing

C. Zamfir

Technical University "Gh. Asachi", Iasi, Romania

Symposium on Knowledge-based Systems, Expert Systems, and Knowledge Discovery

Session 1

Auditorium P8 TUI, July 18, 9:00-10:30

Chairman: Prof. K. Puzstai

Co-Chairman: Prof. D. Galea

A Prolog Remote Predicate Call Protocol

A. Suci, K. Puzstai, T. Muresan

Technical University, Cluj-Napoca, Romania

Expert System Use in Telemedicine

M. N. Stefanescu¹, S. Puscoci²

Clinical Hospital "Coltea", Bucharest, Romania¹,

National Communication Research Institute, Bucharest, Romania²

An Model for Manufacturing Systems Analysis

C. Ciufudean, G. Mahalu

"Stefan Cel Mare" University, Suceava, Romania

Using the Base of Global Implications Resulting from the Association Rule Problem

L. Dumitriu

"Dunarea de Jos" University, Galati, Romania

Session 2

Hall P6 TUI, July 19, 9:00 – 10:30

Chairman: Prof. K. Pusztai

Co-Chairman: Prof. D. Pop

On Computational Knowledge: A Semiotic Approach

T. D. Stanciu

“Al. I. Cuza” University, Iasi, Romania

Nonmonotonic Inference Operations for Default Logics

M. Lupea

University “Babes-Bolyai”, Cluj-Napoca, Romania

ESDB System - Combining Expert System Shells with Database Management Systems

D. Pop, V. Negru, H. Popa

University of the West, Timisoara, Romania

Toward a Diagnosis System Using Nuclear Medicine Image Processing

M. Costin, M. Zbancioc, A. Ciobanu, C. Stefanescu

Institute for Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Material Computer-Aided Selection in Engineering Design

G. Musca, E. Musca

Institute for Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Symposium on Speech Processing and Natural Language

Co-organized by

Technical University of Iasi and

The Commission for the Information Sciences for the Romanian Language, Romanian Academy

Scientific Committee

Chairman: Dan Tufis (Romania)

Corneliu Burileanu, Dan Cristea, Florin Grigoras, Horia-Nicolai Teodorescu (Romania)

Session 1. Speech Synthesis

Auditorium P6, Technical University, Iasi 18 July, 14:30-16:30

Chairman: Prof. C. Burileanu

Co-Chairman: Prof. F. Grigoras

Speech Compression Techniques on Motorola DSP-Based Platforms

C. Burileanu¹, R. Preda², A. Fecioru¹, D. Ion¹,

¹*Politehnica University, Bucharest, Romania*

²*Motorola DSP Center, Romania*

An ANN-Based Method to Improve the Phonetic Transcription Module of a TTS System for the Romanian Language

D. Jitca, V. Apopei, F. Grigoras

Institute of Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Text-to-Speech System for Romanian Language Based on Formantic Synthesis

D. Jitca, V. Apopei, F. Grigoras

Institute of Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Session 2. Speech Analysis and Recognition. Natural Languages

Auditorium P8, Technical University, Iasi 18 July, 10:45-16:30

Chairman: Prof. H. Costin

A Neural Network Approach in Acoustic Speech Recognition

C. Burileanu, A. Roman, C. Ciocina, L. Guta

Politehnica University, Bucharest, Romania

Segmentation Algorithm for Clause-Type Textual Units

D. Galea, C. Lintes, G. Holban, C. Bolea

Institute of Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Linguistic Expert System for Syllable Decomposition in order to Establish the Accent for Speech Processing

M. Costin, M. Zbancioc

Institute of Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

Session on Image Processing and Recognition

Main Hall of the Romanian Academy- Iasi Branch, July 18, 10:45-12:30

Chairman: R. Oliveira

Co-Chairman: S. Bejinariu

Organizer: Institute of Theoretical Informatics, Iasi

Advances in Portuguese Geographical Document Analysis

H. Shahbazkia, T. Candeias, F. Tomaz, R. Oliveira

Universidade Do Algarve – UCEH, BIF Laboratory, Campus De Gambelas, Portugal

3D Surface Simplification Algorithm

S. Bejinariu, M. Roman, F. Rotaru

Institute of Theoretical Informatics, Romanian Academy, Iasi, Romania

Graphic Symbols Generator for the Phonetic Transcription in the Electronic Linguistic Atlas

V. Apopei, S. Bejinariu, M. Roman

Institute of Theoretical Informatics, Romanian Academy, Iasi, Romania

Graph Based Image Pre-Processing and Segmentation

M. Roman, S. Bejinariu

Institute of Theoretical Informatics, Romanian Academy, Iasi, Romania

Binary Image Processing Operations with Modified Cellular Neural Networks

Radu P. Matei

Technical University “Gh. Asachi”, Iasi, Romania

A Face Recognition Algorithm Based on Geometrical Model

I. Mitrache

Power SRL, Bucharest, Romania

Iconographic Image Processing in 2D and 3D systems

I. Sandu, N. Slitanu, I.C.A. Sandu, I.G. Sandu

Univ. Al. I. Cuza Iasi, Romania

Automatic Two-Dimensional Mesh Generation

I. Pavaloi, C. Bolea

Institute of Theoretical Informatics, Romanian Academy, Iasi, Romania

Session on Hardware for Intelligent Systems

Council Hall of Faculty of Electronics, Technical University “Gh. Asachi”, Iasi, July 17, 14:30-16:30

Chairman: C. Ciufudean

Co-Chairman: H. Carstea

Volterra Analyzes in F.E.T. Microwave Oscillators

G. Anastasiu, C. Ciufudean

Faculty of Electrical Engineering, Suceava, Romania

Radio-Transmitter System for PC Controlled Structures

G. Mahalu, C. Ciufudean

Suceava University, Suceava, Romania

An equivalent Model of Noise for the Bipolar Operational Amplifier

H. C. Carstea

“Politehnica” University of Timisoara, Romania

Using Conversion Model for CMOS IC Behavior Prediction under Ionizing Conditions

A. Avram

„Politehnica” University Timisoara, Romania

Resonant-PWM Converter with Fixed Switching Frequency

I. Pletea, I. Raducanu

Technical University “Gh. Asachi”, Iasi, Romania

A 12-Bit Low-Pass Passive Sigma Delta Modulator with Built-In Mixer for 100 MHz IF Input

Dan Grosu

Technical University “Gh. Asachi”, Iasi, Romania

Controlling of Supervising Power System Harmonic Trends

I. Pletea

Technical University “Gh. Asachi”, Iasi, Romania

Symposium on Intelligent Systems and AI. Methods in Medicine and Biology (including Virtual Reality)

Session 1. Methods

Auditorium P8, TUI, Technical University, Iasi 18 July, 15:00-16:30

Chairman: Prof. S. Arita

Co-Chairman: Prof. C. Morabito

The *Whats* and the *Hows* of Risk Management

S. Loznen

The Standards Institution of Israel, Tel Aviv 69977, Israel

Estimation of Model Parameters from Chaotic Time Series

M. Negoita, R. Ciorap, F. Topoliceanu, I. Grosu

University of Medicine and Pharmacy “Gr.T. Popa”, Iasi, Romania

Discrete Wavelet Transform for Noise Removing in EMG Signal

M. Ungureanu, R. Strungaru, V. Lazarescu

Politehnica University of Bucharest, Romania

Knowledge – Based System for Tremor Symptom Diagnosis and Medical Prescriptions

O. Geman

Technical University “Gh. Asachi”, Iasi, Romania

Session 2 A. Methods

Main Hall of the Romanian Academy-Iasi Branch, July 18, 16:45-17:30

Chairman: Prof. R. Strungaru

Co-Chairman: Prof. V. Lazarescu

Wavelet Domain Independent Component Analysis (ICA) of Experimental Biomedical Data

C. F. Morabito

University “Mediterranea” of Reggio, Calabria, Italy

Artificial Neural Networks – An Alternative Method in the Selection of Human Origin Meant for the Varum

Correcting Tibial Osteotomy

A. Sfarghiu¹, M. Serban¹, H. Follet², R. Bardonnnet³

University of Medicine and Pharmacy “Gr.T. Popa”, Iasi, Romania¹,

Solid Mechanics Laboratory (LMSO), INSA Lyon, France²

TBF Laboratory, Lyon, France³

Analysis of a Neuro-Fuzzy Predictor for ECG-Signal

L. Fira

Technical University “Gh. Asachi”, Iasi, Romania

Improving Cochlear Implant Parameters by Simulation Techniques

M. Costin¹, M. Zbancioc¹, C. B. Vachon²

¹Institute for Theoretical Informatics, Romanian Academy, Iasi Branch, Romania

²Claude Bernard University, Lyon, France

Session 2 B. Methods

Main Hall of the Romanian Academy-Iasi Branch, July 19, 9:00-10:30

Chairman: Prof. V. Lazarescu

Co-Chairman: Prof. R. Strungaru

The Analysis of Isometric Loading on Biceps EMG Dynamics Using Linear and Nonlinear Tools

M. Negoita, C. Corciova, F. Topoliceanu, R. Ciorap

University of Medicine and Pharmacy “Gr.T. Popa”, Iasi, Romania

A New Type of Noncontact 3D Multimodal Interface to Track and Acquire Hand Position and Tremor Signal

D. M. Dobra

Technical University “Gh. Asachi”, Iasi, Romania

Roundtable on intelligent systems in medicine. Moderator: Prof. Rodica Strungaru, Prof. E. Sofron

Session on Internet-based Systems and E-Commerce

ROSYCS 2002

Symposium on Advanced Algorithms, Parallel Computing and Grid Computing

Wednesday, July 17

Session 1: Methods, Algorithms, Tools

11.50-12.10 Parallel Extension of a Dynamic Performance Forecasting Tool

E. Caron, F. Suter

Ecole Normale Supérieure de Lyon, Lyon, France

12.10-12.30 Distributed Threads in Java

D. Weyns, E. Truyen, P. Verbaeten

Katholieke Universiteit Leuven, Belgium

14.00-15.00 Agent Technology in Support of e-Commerce

Marcin Paprzycki

15.00-15.30 Coffee break

Session 2: Scheduling and load balancing

15.30-15.50 Designing and Developing Multi-Agent Systems

S. Alboaie, G. Ciobanu

Institute of Theoretical Informatics, Romanian Academy

15.50-16.10 A Recursive Method for Graph Scheduling

C. Taddonki

University of Geneva, Geneva, Switzerland

16.10-16.30 A Convergence Proof of FGDLS when the Workload is Monotonous

T. Tabirca¹, L. Freeman¹, S. Tabirca²

University of Manchester, Manchester, UK¹,

University College Cork, Cork, Ireland²

18.00-19.00 Cocktail ROSYCS'2002

Thursday, July 18

9.00-10.00 Grid Computing and Applications to Computational Biology

D. C. Marinescu

UCF, USA

10.00- 10.15 Coffee break

Session 3: Methods, Algorithms, Tools

10.15-10.35 Dynamic Load Balancing Strategies for Parallel Computers

A. Osman, H. Ammar

West Virginia University, Virginia, USA

10.35-10.55 A Database for Dynamic Distributed Content and its Application

W. Hoschek

CERN IT Division, Geneva, Switzerland

10.55-11.15 Implementing the WebCom 2 Distributed Computing Platform with XML

J. P. Morrison, P. Healy

University College Cork, Cork, Ireland

11.15-11.30 Coffee break

Session 4: Applications

11.30-11.50 Decomposition of the Computation Area in the Parallel Implementation of the FDTD Algorithm

W. Walendziuk, J. Forenc

Technical University of Bialystok, Bialystok, Poland

11.50-12.10 Implementation of the Approximate String Matching Application on a Cluster of Heterogeneous Workstations

P. D. Michailidis

University of Macedonia, Macedonia, Yugoslav Republic

12.10-12.30 Constructing Energy-Efficient Broadcast Trees in Wireless Ad Hoc Networks

A. T. Chronopoulos¹, S. Ponipireddy¹, J. Sarangapani²

University of Texas at San Antonio, San Antonio, USA¹,

University of Missouri-Rolla, Missouri-Rolla, USA²

12.30-14.00 Lunch

14.00-15.00 Utpal Banerjee - reserved topic

15.00-15.30 Coffee break

Session 5: Process Algebra

15.30-15.50 Testing Theories for Broadcasting Processes

C. Ene, T. Muntean

University of Marseilles, Marseilles, France

15.50-16.10 A Process Algebra for Predictable Control Systems

N. Marian

Danfoss A/S, Denmark

16.10-16.30 Development Methodology of Multichannel Symmetric Block Cypher Processors

A. Melnyk¹, T. Korkishk²

Lviv Polytechnic National University¹

Academy of National Economy, Ukraine²

17.00-19.00 Tour of Iasi (participants to ROSYCS'2002 only)

Friday, July 19

Hall of Computer Science Faculty, "AL. I. Cuza" University, Iasi

9.00-10.00 Hardware-Software Tradeoffs for High-Performance Application Specific Processors

A. Nicolau

10.00- 10.30 Coffee break

10.30-11.30 The UK e-Science Programme and the Grid

Tony Hey

Director UK e-Science, UK

11.30-11.40 Coffee break

Session 6: Grid, Cluster and P2P

11.40-12.00 Impact of a Realistic Workload in Peer-to-Peer Systems. A Case Study: Freenet

G. Da Costa, O. Richard

Laboratoire ID-IMAG, France

12.00-12.20 Ad hoc Metacomputing with Compeer

K. Power, P. Morrison

University College Cork, Cork, Ireland

12.20-12.40 Probes Coordination Protocol for Network Performance Measurement in GRID Computing Environment

R. Harakaly, P. Primet, F. Bonassieux, B. Gaidioz
INRIA-RESO, Lyon, France

12.40-13.00 Communication on the Fly in a System of Dynamic SMP Clusters

M. Tudruj, L. Masko
Polish Academy of Sciences, Poland

13.00-14.30 Lunch

15.00-22.00 North Moldavia Tour and Symposium Banquet

Saturday, July 20

9.00-10.00 Agent based Semantic Grids: Research Issues and Challenges

O. Rana
Cardiff University, Cardiff, UK

10.00- 10.30 Coffee break

Session 7: Methods, Algorithms, Tools

10.30-10.50 On the Speedup of Parallel Iterative Numerical Methods

D. Petcu
West University of Timisoara, Timisoara, Romania

10.50-11.10 Comparison of WebCom in the Context of Job Management Systems

J. P. Morrison, B. Clayton, A. Patil
University College Cork, Cork, Ireland

11.10-11.30 Agent-Client Interaction in a Web-based E-Commerce System

M. Gordon¹, M. Paprzycki¹, V. Galant²
Oklahoma State University, Oklahoma, USA¹
Wroclaw University of Economics, USA²

11.30-11.50 RT-DIS-COM: a Protocol to Manage Distributed Real-Time Transaction Commit

L. Amanton, B. Sadeg, S. Saad-Bouzeffrane
Faculte des Sciences et Techniques du Havre, Havre, France

11.50-12.10 Distributed Data Mining

V. Fiolet, B. Toursel
University of Lille, Lille, France

12.10-12.30 Average Case Analysis Based Protocols to Initialize Packet Radio Networks

J. F. Myoupo¹, V. Ravelomanana²
University of Picardie, Picardie, France¹
Universite Paris-Nord 99, Paris, France²

12.30-14.00 Lunch

14.00 Departure of participants

SPONSORS

ROMUS Trading & Development, an American company, was founded in 1994 in Iasi, Romania. The company began as a manufacturer of personal computers and quickly developed to offer clients complete IT solutions from hardware and software products to systems integration services.

The company's mission is to provide information technology solutions of the highest standards that lead to improved business efficiency for our customers.

The company's strategy is to stay actively informed in areas of IT that have a high impact for businesses, to develop and maintain strong partnerships with the leading suppliers in these IT fields, to use our knowledge and experience to recommend the solution that best fits the customer's needs, and to exceed our customers' expectations in professionalism. With this strategy, the company has a clearly differentiated position than other competitors in the market.

For computing hardware – PCs, notebooks, and servers– our main partners are: Fujitsu-Siemens, Bull, IBM and Compaq. For voice and data networks - both wired and wireless - the AMP NetConnect system, one of the most advanced structured cabling systems in the world, together with Cisco and Cabletron active equipment represents worldwide guaranteed solutions for both performance and reliability.

In the software application domain, our clients' success is assured by the integrated business systems offered in partnership with SIVCO Romania, the groupware and workflow systems from Teamware/Fujitsu and Meridio, and the company's experienced team of Oracle developers.

All these solutions are backed by the highest quality services. As proof of our dedication to quality, ROMUS Trading & Development is an ISO 9001 certified company by SIMTEX-OC. The company follows the ISO 9001 quality procedures in implementing complex IT systems and for the complete technical support services offered for every business solution provided.

The long list of satisfied customers demonstrates the positive impact our company's solutions have had on our client's businesses. The company's professionalism and high quality products and services have been the reason customers continually and repeatedly chose ROMUS Trading & Development as their IT business solutions provider.
