

Romanian Academy
University “Politehnica” of Bucharest

**Speech Technology and
Human-Computer Dialogue**

Proceedings of the 2nd Conference
Bucharest, April 10-11, 2003

Coordinator:

Corneliu Burileanu

Editura Academiei Române
Bucharest, 2003

Contents

Foreword, <i>Corneliu Burileanu</i>	7
Spoken Language Technology, <i>Mihai Draganescu</i>	11
Word Sense Clustering Based on Translation Equivalence in Parallel Texts: A Case Study in Romanian, <i>Dan Tufis, Radu Ion</i>	13
Strategies of Dialogue, <i>Jean Caelen</i>	27
An ANN-Based Method to Improve the Phonetic Transcription And Prosody Modules of a TtS System for the Romanian Language, <i>Doina Jitca, Horia-Nicolai Teodorescu, Vasile Apopei, Florin Grigoras</i>	43
A System for Multimodal Dialogue and Language Acquisition, <i>Sorin Dusan, James Flanagan</i>	51
A System Approach to Man-Machine Dialogue, <i>Eugeniu Oancea</i>	61
Towards Conversational Model for Speaker Segmentation, <i>Daniel Moraru, Laurent Besacier</i>	69
Printed Romanian Modelling: the m-Grams and the Word Information Sources, <i>Adriana Vlad, Adrian Mitrea, Mihai Mitrea</i>	79
Voice over IP: An Overview: <i>Corneliu Burileanu, Andrei Roman, Cristina Ciochina, Mihai Puchiu</i>	99
Continuous Speech Recognition Based on Statistical Methods, <i>Inge Gavut, Corneliu Octavian Dumitru, Gabriel Costache, Diana Militaru</i>	115

On Automatic Speech Synthesis for Spoken Language Interfaces, <i>Dragos Burileanu, Andrei Fecioru, Dragos Ion</i>	127
Using Chaos for Speech Encoding, <i>Mihai Radu, Dan Greco</i>	139
Robust Recognition of Small-Vocabulary Telephone-Quality Speech, <i>Dragos Burileanu, Mihai Sima, Cristian Negrescu, Victor Croitoru</i>	145
A Comparative Study of the Methods Used in Isolated Words Recognition, <i>Alexandru Caruntu, Gavril Todorean</i>	155
Experimental Information Retrieval System Based on Romanian Continuous Speech Recognition, <i>Mircea Giurgiu</i>	161
The Hilbert Transform – From Pure Theory to Practical Applications, <i>Dumitru Stanomir, Cristian Negrescu</i>	167
Contribution to Speaker Recognition Using TESPAP Method, <i>Gavril Todorean, Petre Pop, Eugen Lupu</i>	181
On the Use of Semicontinuous Hidden Markov Models for Speech Recognition, <i>Mircea Giurgiu</i>	187
